Historical Context and Background of "Les Jeux Sont Faits"

Origin and Authorship

"Les Jeux Sont Faits" (translated as "The Games Are Made") is a play written by Jean-Paul Sartre, one of the most influential philosophers and playwrights of the 20th century. Completed in 1943 during the tumultuous years of World War II, the work embodies Sartre's existentialist philosophy, confronting themes of death, moral choice, and the absurdity of human existence.

Sartre's engagement with theatre was instrumental in articulating existentialist ideas through dramatic form. "Les Jeux Sont Faits" was among his early plays that showcased his interest in depicting characters faced with impossible moral dilemmas, emphasizing personal responsibility amid chaos.

Publication and Folio Series Introduction

The Folio T 2805 edition of "Les Jeux Sont Faits" is particularly significant as it offers a carefully annotated text, contextual essays, and critical analyses, making it suitable for both academic study and general readership.

Content Overview: Plot and Main Themes

Synopsis of the Play

"Les Jeux Sont Faits" is set in the afterlife, where two characters—Gaston and Inez—find themselves caught in a limbo-like existence after death. The play unfolds as they discover that their lives on earth were governed by choices intertwined with chance and destiny. Their eternal fate hinges on a series of moral and existential decisions, with the intervention of Fate and the divine serving as critical plot elements.

The narrative explores the idea that human actions are subject to chance, yet individuals bear responsibility for their choices. Sartre employs a theatrical setting that blurs the boundary between life and death, emphasizing the philosophical question: Are our lives predetermined, or do we possess free will?

Core Themes and Philosophical Underpinnings

- Existence and Essence: Sartre's foundational existentialist notion that "existence precedes essence" permeates the play. Characters confront the meaning of their existence beyond the physical realm, questioning whether their lives had inherent purpose or were shaped by their actions alone.
- Freedom and Responsibility: The play underscores the paradox of human freedom—despite external circumstances, individuals are responsible for their choices. Sartre illustrates how even in the face of seemingly predetermined outcomes, moral responsibility remains paramount.
- Fate and Chance: The title itself suggests that life's outcomes are as much a matter of chance as of deliberate action. Sartre examines how randomness influences human destiny, challenging notions of divine providence or absolute predestination.
- Morality and Ethics: Characters grapple with moral dilemmas that test their integrity, illustrating Sartre's belief that morality is self-generated—each person must define their own values through action.
